

Diabetes Report January 25, 2009

The diabetes committee has been working on Speakers and format for Diabetes presentation at March District Convention.

Our Committee received a very nice Plaque from Juvenile Diabetes Research Foundation at their thank-you dinner at the Hog Room at Capitol City Harley Davidson. Dale E Boness accepted the Plaque and will present it to WLF office on his next trip to Rosholt for a State Lions Diabetes Focus Group meeting.

Committee members have been speaking to Clubs in the district on Diabetes Awareness.

Two Organizations in the State interested in Diabetes Prevention and Control, Juvenile Diabetes Research Foundation and the National Kidney Foundation, will be doing joint ventures with the Lions, not only at our District Convention but at several events coming up in the New Year.

The committee has been working Hand in Hand with Peggy Daluge on information for our Lions Newspaper and future communications efforts on the Diabetes Epidemic that is upon us!

Dale E. Boness
